## ARMoured VEHICLE AWARENESS TRAINING PROGRAM

### ROLE BASED LEARNING PATHWAYS (RBLP)

Following on from the Awareness Framework, Armoured Consulting has developed a series of Role Based Learning Pathways (RBLPs)

These learning pathways include the particular skills and competencies that would typically be required in order to perform significant operational roles that involve and interact with civilian armoured vehicles.

They provide the basis by these people can then be trained in those competencies that are specific to the effective and efficient performance of the different jobs that involve civilian armoured vehicles.

There are five Role Based Learning Pathways which correlate to the primary functional roles that are involved with civilian armoured vehicles:

1. Driver/Operator
2. Locally Based Fleet Manager
3. Maintenance Workshop
4. Locally Based Operational Administration
5. Organisation Headquarters Procurement

---

## Driver/Operator

These awareness foundations define what drivers/operators specifically need to know about civilian armoured vehicles in order to driver and operate the vehicles in a safe and secure manner:

- Fundamentals of Civilian Armoured Vehicles
- Introduction to Ballistics for Civilian Armoured Vehicles
- Introduction to Blast Resistance for Civilian Armoured Vehicles
- Safe Operational Use of a Civilian Armoured Vehicle
- Vehicle Dynamics for Civilian Armoured Vehicles
- Vehicle Maintenance for Civilian Armoured Vehicles
- Vehicle Accident Reporting
- Principles of Through Life Support
- Defensive Driving Techniques for Civilian Armoured Vehicles.

## Locally Based Fleet Manager

These awareness foundations define what fleet managers need to know about civilian armoured vehicles so as to provide front line management support to the fleet and the drivers and operators who use them:

- Fundamentals of Civilian Armoured Vehicles
- Introduction to Ballistics for Civilian Armoured Vehicles
- Introduction to Blast Resistance for Civilian Armoured Vehicles
- Safe Operational Use of a Civilian Armoured Vehicle
- Principles of Through Life Support
- Supply Chain Management
- Fleet Management Reporting
- Vehicle Accident Report
- Warranty Claims for Civilian Armoured Vehicles

---

## Administration

These awareness foundations define what an organisation's front line manager at Post need to know about civilian armoured vehicles so as to provide overall management overview of their civilian armoured vehicle fleet:

- Fundamentals of Civilian Armoured Vehicles
- Principles of Through Life Support
- Vehicle Accident Reporting
- Warranty Claims for Civilian Armoured Vehicles

## Workshops

These awareness foundations define what mechanical and repair workshop owners, managers and workers need to know about civilian armoured vehicles so as to maintain and repair civilian armoured vehicles in a way that ensures that they are "fit for purpose":

- Fundamentals of Civilian Armoured Vehicles
- Workshop Authorisation
- Workshop Maintenance of Civilian Armoured Vehicles
- Scheduled Servicing of Civilian Armoured Vehicles
- Modified Parts Manuals for Civilian Armoured Vehicles

## Procurement

These awareness foundations define what functional and procurement managers in an organisation's headquarters need to know about civilian armoured vehicles in order to effectively and efficiently define, procure and manage their diversified fleet of civilian armoured vehicles:

- Fundamentals of Civilian Armoured Vehicles
- Introduction to Ballistics for Civilian Armoured Vehicles
- Introduction to Blast Resistance for Civilian Armoured Vehicles
- Safe Operational Use of a Civilian Armoured Vehicle
- Principles of Through Life Support
- Civilian Armoured Vehicle Specifications
- Civilian Armoured Vehicle Procurement Project Management
